## Community Surveys

The city council and the city's boards, committees, and commissions are requesting your input on issues affecting our city, as well as where the city's future resources should be directed.

In order to gather this information, the city has mailed each Westworth Village resident a survey. Please take the time to answer each question as honestly and with as much detail as you believe necessary. We welcome all your comments, suggestions, and questions.

Your survey needs to be returned to Westworth Village's city secretary, Brandy Barrett, by **November 22nd**, and please use the self-addressed and stamped enveloped provided for your convenience. Staff will then begin tabulating the results, and those results will be presented to the city council and the city's various boards, committees, and commissions in January.

The results and your input will also be utilized as points of reference in future town hall meetings and committee workshops.

If you have any questions, please contact Brandy Barrett at [bbarrett@cityofwestworth.com](mailto:bbarrett@cityofwestworth.com) or 817-710-2526

## Grease is a Hazard to Our Health

Residents should never dispose of cooking grease or cooking oils by washing them down the plumbing system or the storm drain. Oils pollute our streams and creeks by forming a film on the water surface and preventing oxygenation for aquatic life. Polluted water runoff can lead to severe State and Federal fines. As sewer pipes back up, food and sewage particles accumulate to create a health hazard by attracting insects and vermin. Soak leftover amounts of cooking oil with a paper towel and throw it in the trash, filter and freeze to reuse for another meal, or recycle cooking oil by calling the Fort Worth Household Hazardous Waste Collection Center at 817-871-5257.
