

March 23, 2022

Texas Commission on Environmental Quality (TCEQ)
Region 4, Water Section Manager
2309 Gravel Dr.
Fort Worth, TX 76118

RE: Phase II MS4 Annual Report Transmittal for City of Westworth Village MS4
TPDES Permit Authorization: TXR040378

Dear Team Leader:

This letter serves to transmit the 2021 Annual Report of the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number: TXR040378 for the City of Westworth Village MS4.

As required by the general permit, a copy of this submittal has also been mailed to the TCEQ's main office in Austin, Texas.

If you have any questions, please contact us at (269) 204-8336 or email at ccooke-morse@cityofwestworth.com.

Sincerely,

Cody Cooke-Morse
Director of Public Works, City of Westworth Village

Phase II (Small) MS4 Annual Report Form

TPDES General Permit Number TXR040000

A. General Information

Authorization Number: TXR0400378

Reporting Year (year will be either 1, 2, 3, 4, or 5): 3

Annual Reporting Year Option Selected by MS4:

Calendar Year: X

Permit Year: _____

Fiscal Year: _____ Last day of fiscal year: (_____)

Reporting period beginning date: (month/date/year) January 1, 2021

Reporting period end date: (month/date/year) December 31, 2021

MS4 Operator Level: Level 1 Name of MS4: City of Westworth Village

Contact Name: Cody Cooke-Morse Telephone Number: 269-204-8336

Mailing Address: 311 Burton Hill Road, Westworth Village, Texas 76114

E-mail Address: ccooke-morse@cityofwestworth.com

A copy of the annual report was submitted to the TCEQ Region: YES X

NO ___ Region the annual report was submitted to: TCEQ Region 4

B. Status of Compliance with the MS4 GP and SWMP

1. Provide information on the status of complying with permit conditions:
(TXR040000 Part IV.B.2)

	Yes	No	Explain
Permittee is currently in compliance with the SWMP as submitted to and approved by the TCEQ.	X		Permittee is following SWMP that has received technical approval.
Permittee is currently in compliance with recordkeeping and reporting requirements.	X		

Permittee meets the eligibility requirements of the permit (e.g., TMDL requirements, Edwards Aquifer limitations, compliance history, etc.).	X		
Permittee conducted an annual review of its SWMP in conjunction with preparation of the annual report	X		

2. Provide a general assessment of the appropriateness of the selected BMPs. You may use the table below to meet this requirement (**see Example 1 in instructions**):

MCM(s)	BMP	BMP is appropriate for reducing the discharge of pollutants in stormwater (Answer Yes or No and explain)
III.B.1 Public Education, Outreach, and Involvement (a) Public Education and Outreach (b) Public Involvement	1. Distribute Educational Material	Yes – Appropriate for Public Education, Outreach, and Involvement.
III.B.1 Public Education, Outreach, and Involvement (a) Public Education and Outreach (b) Public Involvement	2. Web Site	Yes – Appropriate for Public Education, Outreach, and Involvement.
III.B.1 Public Education, Outreach, and Involvement (a) Public Education and Outreach III.B.2 Illicit Discharge and Elimination (c)(3) Public Reporting III.B.3 Construction Site Stormwater Runoff Control (b)(6) Information Submitted by Public	3. Stormwater Reporting Line	Yes – Appropriate for Public Education, Outreach, and Involvement; Illicit Discharge and Elimination; and Construction Site Runoff Control

III.B.1 Public Education, Outreach, and Involvement (b) Public Involvement	4. Waste Cleanup	Yes – Appropriate for Public Education, Outreach, and Involvement.
III.B.2. Illicit Discharge and Elimination (a)(1) Program Development (c)(5)c Corrective Action	5. Illicit Discharge Prohibition/Elimination Ordinance	Yes – Appropriate for Illicit Discharge and Elimination.
III.B.2 Illicit Discharge Detection and Elimination (c)(1) MS4 Mapping	6. Storm Sewer System Map	Yes – Appropriate for Illicit Discharge and Elimination
III.B.2. Illicit Discharge Detection and Elimination (c)(2) Education and Training III.B.3. Construction Site Stormwater Runoff Control (b)(7) MS4 Staff Training III.B.5. Pollution Prevention and Good Housekeeping for Municipal Operations (b)(2) Training and Education	7. Training	Yes – Appropriate for Illicit Discharge Detection and Elimination; Construction Site Stormwater Runoff Control; and Pollution Prevention and Good Housekeeping for Municipal Operations
III.B.2. Illicit Discharge Detection and Elimination (c)(4) Procedures (c)(5) Source Investigation and Elimination (c)(6) Inspections	8. IDDE Response, Investigation, and Inspection	Yes – Appropriate for Illicit Discharge and Elimination.
III.B.2. Illicit Discharge Detection and Elimination (c)(4) Procedures (c)(5) Source Investigation and Elimination	9. Spill Response	Yes – Appropriate for Illicit Discharge and Elimination.

III.B.3. Construction Site Stormwater Runoff Control (a)(1) Ordinance (b)(2) Contractor Requirements (b)(3) Prohibited Discharges	10. Erosion Control Ordinance and Requirements for Construction Site Contractors	Yes – Appropriate for Construction Site Stormwater Runoff Control.
III.B.3. Construction Site Stormwater Runoff Control (b)(4) Construction Plan Review Procedures	11. Erosion Control Plan Review	Yes – Appropriate for Construction Site Stormwater Runoff Control.
III.B.3. Construction Site Stormwater Runoff Control (b)(5) Construction Site Inspections	12. Construction Site Inspection and Enforcement	Yes – Appropriate for Construction Site Stormwater Runoff Control.
III.B.4. Post-Construction Stormwater Management in New Development and Redevelopment (a)(2) Ordinance (b)(2) Enforcement	13. Post-Construction Stormwater Ordinance	Yes – Appropriate for Post-Construction Stormwater Management in New Development and Redevelopment.
III.B.4. Post-construction Stormwater Management in New Development and Redevelopment (b)(2) Enforcement	14. Development Review	Yes – Appropriate for Post-Construction Stormwater Management in New Development and Redevelopment.
III.B.4. Post-construction Stormwater Management in New Development and Redevelopment (b)(3) Long-Term Maintenance of Post-Construction Stormwater Control Measures	15. Structural Control Maintenance	Yes – Appropriate for Post-Construction Stormwater Management in New Development and Redevelopment.

III.B.5 Pollution Prevention and Good Housekeeping for Municipal Operations (b)(1) Permittee-owned Facilities and Control Inventory	16. Inventory of Facilities and Stormwater Controls	Yes – Appropriate for Pollution Prevention and Good Housekeeping for Municipal Operations.
III.B.5. Pollution Prevention and Good Housekeeping for Municipal Operations (b)(3) Disposal of Waste Material	17. Disposal of Collected Waste	Yes – Appropriate for Pollution Prevention and Good Housekeeping for Municipal Operations.
III.B.5. Pollution Prevention and Good Housekeeping for Municipal Operations (b)(4) Contractor Requirements and Oversight	18. Contractor Oversight Procedures	Yes – Appropriate for Pollution Prevention and Good Housekeeping for Municipal Operations.
III.B.5. Pollution Prevention and Good Housekeeping For Municipal Operations (b)(5) Municipal Operation and Maintenance Activities	19. Municipal Operations and Maintenance Activity	Yes – Appropriate for Pollution Prevention and Good Housekeeping for Municipal Operations.

3. Describe progress towards achieving the goal of reducing the discharge of pollutants to the MEP. If no progress was made or the BMP did not result in a reduction in pollutants, provide an explanation. Use the table below to meet this requirement (**see Example 2 in instructions**):

MCM	BMP	Information Used	Quantity	Units	Does the BMP Demonstrate a Direct Reduction in Pollutants? (Answer Yes or No and explain)
1	BMP-4 Waste Cleanup	Waste	18.72	Tons	Yes direct – Collection and proper disposal of pollutants

1	BMP-4 Waste Cleanup	Hazardous / Bulk Waste	115	Pounds	Yes direct – Collection and proper disposal of pollutants
2	BMP-9 Spill Response	Spills	0	Response events	Yes direct – Procedure is in place to promptly address detected discharge of pollutants; however, no spills were reported in 2021 therefore no response events occurred.
3	BMP-12 Construction Site Inspection and Enforcement	Construction Sites	1	Construction sites were regularly inspected.	Yes direct – Procedure to evaluate proper implementation and maintenance of construction site erosion control systems
4	BMP-14 Development Review	Plans	4	Interim reviews conducted	Yes direct – Procedure to evaluate proper design of pollutant control systems

4. Provide the measurable goals for each of the MCMs, and an evaluation of the success of the implementation of the measurable goals (**see Example 3 in instructions**):

MCM(s)	Measurable Goal(s)	Explain progress toward goal or how goal was achieved. If goal was not accomplished, please explain.
MCM 1 BMP-1 Distribute Educational Material	Distribute 100 stormwater quality educational brochures to public employees, businesses, and the general public a minimum of once per year by December 2021. Publish water quality topics in 50% of the "Westworth Village News" monthly newsletters by December 2021.	Met Goal. 150 brochures have been distributed to the public and is available at the front office of City Hall. Additionally, multiple stormwater quality issues were addressed in ten of the twelve monthly newsletters distributed to the public in 2021.

<p>MCM 1</p> <p>BMP-2</p> <p>Web Site</p>	<p>Review 100% of the stormwater page will occur at least one time by December 2021. If revisions are required as a result of this review, 100% of the revisions will take place by December 2021.</p> <p>Upload 2020 annual report to City's website by April 2021.</p>	<p>Met Goal. The website has been reviewed by December 2021. No revisions were required. The 2020 annual report was uploaded by April 31, 2021.</p>
<p>MCMs 1/2/3</p> <p>BMP-3</p> <p>Stormwater Reporting Line</p>	<p>Include the stormwater reporting line phone number on each stormwater brochure and stormwater website.</p> <p>Record the number of calls received</p> <p>Review 100% of calls at least once by December 2021 to identify trends (i.e., repeated reports of illegal dumping in certain areas of the City. If the trends show that a revision is necessary regarding reporting line procedures or educational material, 100% of the revisions will take place by December 2021.</p>	<p>Met Goal. Stormwater Utility phone number is included on the City's website and the stormwater brochure. No reports were received in 2021. No revisions to procedures or educational material were required in 2021.</p>
<p>MCM 1</p> <p>BMP-4</p> <p>Waste Cleanup</p>	<p>Conduct waste cleanup activities at least twice a year by December 2021 (e.g., bulk waste cleanup, household hazardous waste collection, park cleanup).</p> <p>Evaluate opportunities and public receptiveness for additional waste cleanup activities at least once a year by December 2021.</p>	<p>Met Goal. Two cleanup events occurred in 2021. See quantities of collected materials that are provided in the answer to Question B.3. The City determined the public is very receptive to these cleanup events and additional events are not necessary.</p>
<p>MCM 2</p> <p>BMP-5</p> <p>Illicit Discharge Prohibition/ Elimination Ordinance</p>	<p>Eliminate 100% of identified illicit discharges through the enforcement of the illicit discharge ordinance. Activities will be completed by December 2021.</p>	<p>Met Goal. No illicit discharges were identified in 2021.</p>

<p>MCM 2 BMP-6 Storm Sewer System Map</p>	<p>Perform field inspections of 20% of the stormwater outfall drainage system of the City by December 2021. If the inspection shows that revisions are required, 100% of the revisions shall take place by December 2021.</p>	<p>Met Goal. The City performed field inspections to 10 outfalls (20% of the stormwater outfall drainage system) by December 2021. No revisions were required as a result of the inspections.</p>
<p>MCM 2/3/5 BMP-7 Training</p>	<p>Conduct IDDE training to 100% of the field inspectors at least once a year by December 2021.</p> <p>Conduct a training session covering construction site stormwater runoff control to 100% of the field inspectors at least once a year by December 2021.</p> <p>Conduct Pollution Prevention for Municipal Operation training for 100% of the municipal employees responsible for municipal construction activities at least once a year by December 2021.</p>	<p>Met Goal. IDDE training, stormwater runoff training, and municipal stormwater operation training was conducted in 2021 for 100% of the municipal employees responsible for municipal construction activities. 2 to 3 of City employees attending each of the trainings that took place on February 10, 2021, June 11, 2021, September 10, 2021 and November 19, 2021.</p>
<p>MCM 2 BMP-8 IDDE Response, Investigation, and Inspections</p>	<p>Eliminate 100% of identified illicit discharges through the illicit discharge response and investigation activities including documenting the events on the investigation form. Activities will be completed by December 2021.</p> <p>Prioritize the investigation of discharges based on relative risk of pollution.</p> <p>Develop and adopt written procedures describing the basis for conducting inspections in response to illicit discharge complaints and conducting follow-up inspections by December 2021.</p>	<p>Met Goal. No illicit discharges were identified in 2021.</p> <p>The City has developed written procedures for conducting illicit discharge complaints and follow up inspections.</p>

<p>MCM 2</p> <p>BMP-9</p> <p>Spill Response</p>	<p>Eliminate 100% of illicit discharge by implementation of spill response procedures and training through the Fire Department. Activities will be completed by December 2021.</p> <p>Review 100% of the existing spill response procedures and training at least once a year by December 2021. If modifications are required as a result of this review, 100% of the modifications will take place by December 2021.</p>	<p>Met Goal. No illicit discharges were identified in 2021.</p> <p>Spill response procedures were reviewed in 2021. No modifications were required.</p>
<p>MCM 3</p> <p>BMP-10</p> <p>Erosion Control Ordinance and Requirements for Construction Site Contractors</p>	<p>Continue enforcement of erosion control ordinance. A link to the adopted erosion control ordinance will be included in developer's packet.</p> <p>Sites under construction exceeding one acre will be visited once every two weeks at minimum to a) monitor erosion and sediment controls, soil stabilization, and BMPs through established procedures and b) monitor prohibited discharges through established procedures. These activities will be completed by December 2021 for all sites over an acre that are under construction in 2021.</p>	<p>Met Goal. Erosion control ordinance was adopted in September 2020. A link to the adopted erosion control ordinance is included in the developer's packet.</p> <p>1 site exceeding one acre was under construction in 2021. This site was visited once every two weeks in 2021 to monitor erosion/sediment controls, soil stabilization and prohibited discharges.</p>
<p>MCM 3</p> <p>BMP-11</p> <p>Erosion Control Plan Review</p>	<p>Conduct construction site plan review procedures. Reviews shall be conducted and completed by December 2021 for all sites under construction in 2021.</p>	<p>Met Goal.</p>
<p>MCM 3</p> <p>BMP-12</p> <p>Construction Site Inspection and Enforcement</p>	<p>Conduct construction site inspection and enforcement procedures, including documentation of the inspections and enforcement activities. At least one site visit every 14 days to each active construction site exceeding 1 acre will occur by December 2021 to confirm conformance with the ordinance.</p>	<p>Met Goal. Procedures were followed in 2021. 1 site exceeding one acre was under construction in 2021. This site was visited once every two weeks in 2021 to confirm they conformed with the ordinance.</p>

<p>MCM 4 BMP-13 Post-Construction Stormwater Ordinance</p>	<p>Perform field inspections of 20% of the stormwater outfall drainage system of the City by December 2021 to confirm maximum removal of pollutants in discharges from new development or redevelopment areas. Activities will be completed by December 2021.</p>	<p>Met Goal. Field inspections were performed for 10 outfalls (20% of the stormwater outfall drainage system) in 2021 to confirm maximum removal of pollutants in discharges from new development or redevelopment areas.</p>
<p>MCM 4 BMP-14 Development Review</p>	<p>Implement the design review process for each new development and redevelopment sites that disturb one or more acre. Reviews shall be conducted and completed by December 2021.</p>	<p>Met Goal. 4 Interim reviews were conducted in 2021 and the design review process was followed: Kite Farm, 317 Burton Hill, Magnolia West, Properties along Nimitz Drive</p>
<p>MCM 4 BMP-15 Structural Control Maintenance</p>	<p>Conduct inspections of 20% of the stormwater outfall drainage system of the City by December 2021. Conduct regular maintenance as prescribed.</p>	<p>Met Goal. 10 outfalls (20% of the stormwater outfall drainage system) in 2021 were inspected and regular maintenance was conducted.</p>
<p>MCM 5 BMP-16 Inventory of Facilities and Stormwater Controls</p>	<p>Supplement 50% of inventory of City-owned and operated facilities and stormwater controls with permit numbers, registration numbers, and authorization information by December 2021.</p>	<p>Met Goal. The inventory of City-owned and operated facilities and stormwater controls with permit numbers, registration numbers, and authorization information is up to date.</p>
<p>MCM 5 BMP-17 Disposal of Collected Waste</p>	<p>Properly dispose of 100% of waste materials according to the developed procedures. Activities will be completed by December 2021.</p>	<p>Met Goal. 100% of waste materials were properly disposed of according to developed procedures. See quantities of collected materials that are provided in the answer to Question B.3.</p>

<p>MCM 5 BMP-18 Contractor Oversight Procedures</p>	<p>Contractually require contractors to comply with the City's stormwater management program best management practices and to provide oversight of contractor activities. Activities will be completed by December 2021.</p>	<p>Met Goal. All City contractors contractually comply with the City's stormwater management program BMPs. Oversight of contractor activities were regularly performed in 2021.</p>
<p>MCM 5 BMP-19 Municipal Operations and Maintenance Activity</p>	<p>Adopt and enforce written procedures that describe the frequency of inspections of pollution prevention measures at City-owned facilities and structural controls and how they will be conducted by December 2021.</p> <p>Conduct scheduled assessments and inspections of municipal operation and maintenance activities in 2021 that follows the written procedures. The schedule is located at the Public Works Building and will be completed by December 2021.</p>	<p>Met Goal. The City developed the written procedures that will be prepared for frequency of inspections and pollution prevention measures at City-owned facilities and structural controls and how they will be conducted.</p> <p>Scheduled assessments and inspection of municipal operation and maintenance activities occurred in 2021. The schedule is located at the Public Works building.</p>

C. Stormwater Data Summary

Provide a summary of all information used, including any lab results (if sampling was conducted) to assess the success of the SWMP at reducing the discharge of pollutants to the MEP. For example, did the MS4 conduct visual inspections, clean the inlets, look for illicit discharge, clean streets, look for flow during dry weather, etc.?

The City of Westworth Village conducted visual inspections, cleaned inlets, looked for illicit discharges, cleaned streets and alleys, and looked for flow during dry weather in 2021.

D. Impaired Waterbodies

1. Identify whether an impaired water within the permitted area was added to the latest EPA-approved 303(d) list or the Texas Integrated Report of Surface Water Quality for CWA Sections 305(b) and 303(d). List any newly-identified impaired waters below by including the name of the water body and the cause of impairment.

N/A

2. If applicable, explain below any activities taken to address the discharge to impaired waterbodies, including any sampling results and a summary of the small MS4's BMPs used to address the pollutant of concern.

N/A

3. Describe the implementation of targeted controls if the small MS4 discharges to an impaired water body with an approved TMDL.

N/A

4. Report the benchmark identified by the MS4 and assessment activities:

Benchmark Parameter <i>(Ex: Total Suspended Solids)</i>	Benchmark Value	Description of additional sampling or other assessment activities	Year(s) conducted
N/A	N/A	N/A	N/A

5. Provide an analysis of how the selected BMPs will be effective in contributing to achieving the benchmark:

Benchmark Parameter	Selected BMP	Contribution to achieving Benchmark
N/A	N/A	N/A

6. If applicable, report on focused BMPs to address impairment for bacteria:

Description of bacteria-focused BMP	Comments/Discussion

N/A	N/A
-----	-----

7. Assess the progress to determine BMP's effectiveness in achieving the benchmark.

For example, the MS4 may use the following benchmark indicators:

- number of sources identified or eliminated;
- number of illegal dumpings;
- increase in illegal dumping reported;
- number of educational opportunities conducted;
- reductions in sanitary sewer flows (SSOs); /or
- increase in illegal discharge detection through dry screening.

Benchmark Indicator	Description/Comments
N/A	N/A

E. Stormwater Activities

Describe activities planned for the next reporting year:

MCM(s)	BMP	Stormwater Activity	Description/Comments
III.B.1 Public Education, Outreach, and Involvement (a) Public Education and Outreach (b) Public Involvement	BMP 1	Distribute Educational Material	Distribute 100 stormwater quality educational brochures to public employees, businesses, and the general public a minimum of once per year by December 2022. Publish water quality topics in 50% of the "Westworth Village News" monthly newsletters by December 2022.

<p>III.B.1 Public Education, Outreach, and Involvement (a) Public Education and Outreach (b) Public Involvement</p>	<p>BMP 2</p>	<p>Web Site</p>	<p>Review 100% of the stormwater page will occur at least one time by December 2022. If revisions are required as a result of this review, 100% of the revisions will take place by December 2022.</p> <p>Upload 2021 annual report to City's website by April 2022.</p>
<p>III.B.1 Public Education, Outreach, and Involvement (a) Public Education and Outreach III.B.2 Illicit Discharge and Elimination (c)(3) Public Reporting III.B.3 Construction Site Stormwater Runoff Control (b)(6) Information Submitted by Public</p>	<p>BMP 3</p>	<p>Stormwater Reporting Line</p>	<p>Include the stormwater reporting line phone number on each stormwater brochure and stormwater website.</p> <p>Record the number of calls received</p> <p>Review 100% of calls at least once by December 2022 to identify trends (i.e., repeated reports of illegal dumping in certain areas of the City. If the trends show that a revision is necessary regarding reporting line procedures or educational material, 100% of the revisions will take place by December 2022.</p>
<p>III.B.1 Public Education, Outreach, and Involvement (b) Public Involvement</p>	<p>BMP 4</p>	<p>Waste Cleanup</p>	<p>Conduct waste cleanup activities at least twice a year by December 2022 (e.g., bulk waste cleanup, household hazardous waste collection, park cleanup).</p> <p>Evaluate opportunities and public receptiveness for additional waste cleanup activities at least once a year by December 2022.</p>

<p>III.B.2. Illicit Discharge and Elimination (a)(1) Program Development (c)(5)c Corrective Action</p>	<p>BMP 5</p>	<p>Illicit Discharge Prohibition/Elimination Ordinance</p>	<p>Eliminate 100% of identified illicit discharges through the enforcement of the illicit discharge ordinance. Activities will be completed by December 2022.</p>
<p>III.B.2 Illicit Discharge Detection and Elimination (c)(1) MS4 Mapping</p>	<p>BMP 6</p>	<p>Storm Sewer System Map</p>	<p>Perform field inspections of 20% of the stormwater outfall drainage system of the City by December 2022. If the inspection shows that revisions are required, 100% of the revisions shall take place by December 2022.</p>
<p>III.B.2. Illicit Discharge Detection and Elimination (c)(2) Education and Training III.B.3. Construction Site Stormwater Runoff Control (b)(7) MS4 Staff Training III.B.5. Pollution Prevention and Good Housekeeping for Municipal Operations (b)(2) Training and Education</p>	<p>BMP 7</p>	<p>Training</p>	<p>Conduct IDDE training to 100% of the field inspectors at least once a year by December 2022.</p> <p>Conduct a training session covering construction site stormwater runoff control to 100% of the field inspectors at least once a year by December 2022.</p> <p>Conduct Pollution Prevention for Municipal Operation training for 100% of the municipal employees responsible for municipal construction activities at least once a year by December 2022.</p>

<p>III.B.2. Illicit Discharge Detection and Elimination (c)(4) Procedures (c)(5) Source Investigation and Elimination (c)(6) Inspections</p>	<p>BMP 8</p>	<p>IDDE Response, Investigation, and Inspection</p>	<p>Eliminate 100% of identified illicit discharges through the illicit discharge response and investigation written procedures including documenting the events on the investigation form. Activities will be completed by December 2022.</p> <p>Prioritize the investigation of discharges based on relative risk of pollution.</p>
<p>III.B.2. Illicit Discharge Detection and Elimination (c)(4) Procedures (c)(5) Source Investigation and Elimination</p>	<p>BMP 9</p>	<p>Spill Response</p>	<p>Eliminate 100% of illicit discharge by implementation of spill response procedures and training through the Fire Department. Activities will be completed by December 2022.</p> <p>Review 100% of the existing spill response procedures and training at least once a year by December 2022. If modifications are required as a result of this review, 100% of the modifications will take place by December 2022.</p>
<p>III.B.3. Construction Site Stormwater Runoff Control (a)(1) Ordinance (b)(2) Contractor Requirements (b)(3) Prohibited Discharges</p>	<p>BMP 10</p>	<p>Erosion Control Ordinance and Requirements for Construction Site Contractors</p>	<p>Continue enforcement of erosion control ordinance. A link to the adopted erosion control ordinance will be included in developer's packet.</p> <p>Sites under construction exceeding one acre will be visited once every two weeks at minimum to a) monitor erosion and sediment controls, soil stabilization, and BMPs through established procedures and b) monitor prohibited discharges through established procedures. These activities will be completed by December 2022 for all sites over an acre that are under construction in 2022.</p>

<p>III.B.3. Construction Site Stormwater Runoff Control (b)(4) Construction Plan Review Procedures</p>	<p>BMP 11</p>	<p>Erosion Control Plan Review</p>	<p>Conduct construction site plan review procedures. Reviews shall be conducted and completed by December 2022 for all sites under construction in 2022.</p>
<p>III.B.3. Construction Site Stormwater Runoff Control (b)(5) Construction Site Inspections</p>	<p>BMP 12</p>	<p>Construction Site Inspection and Enforcement</p>	<p>Conduct construction site inspection and enforcement procedures, including documentation of the inspections and enforcement activities. At least one site visit every 14 days to each active construction site exceeding 1 acre will occur by December 2022 to confirm conformance with the ordinance.</p>
<p>III.B.4. Post-Construction Stormwater Management in New Development and Redevelopment (a)(2) Ordinance (b)(2) Enforcement</p>	<p>BMP 13</p>	<p>Post-Construction Stormwater Ordinance</p>	<p>Perform field inspections of 20% of the stormwater outfall drainage system of the City by December 2022 to confirm maximum removal of pollutants in discharges from new development or redevelopment areas. Activities will be completed by December 2022.</p>
<p>III.B.4. Post-construction Stormwater Management in New Development and Redevelopment (b)(2) Enforcement</p>	<p>BMP 14</p>	<p>Development Review</p>	<p>Implement the design review process for each new development and redevelopment sites that disturb one or more acre. Reviews shall be conducted and completed by December 2022.</p>

<p>III.B.4. Post-construction Stormwater Management in New Development and Redevelopment</p> <p>(b)(3) Long-Term Maintenance of Post-Construction Stormwater Control Measures</p>	<p>BMP 15</p>	<p>Structural Control Maintenance</p>	<p>Conduct inspections of 20% of the stormwater outfall drainage system of the City by December 2022. Conduct regular maintenance as prescribed.</p>
<p>III.B.5 Pollution Prevention and Good Housekeeping for Municipal Operations</p> <p>(b)(1) Permittee-owned Facilities and Control Inventory</p>	<p>BMP 16</p>	<p>Inventory of Facilities and Stormwater Controls</p>	<p>Supplement 100% of inventory of City-owned and operated facilities and stormwater controls of City-owned and operated facilities and stormwater controls with permit numbers, registration numbers, and authorization by December 2022.</p>
<p>III.B.5. Pollution Prevention and Good Housekeeping for Municipal Operations</p> <p>(b)(3) Disposal of Waste Material</p>	<p>BMP 17</p>	<p>Disposal of Collected Waste</p>	<p>Properly dispose of 100% of waste materials according to the developed procedures. Activities will be completed by December 2022.</p>

III.B.5. Pollution Prevention and Good Housekeeping for Municipal Operations (b)(4) Contractor Requirements and Oversight	<p style="text-align: center;">BMP 18</p>	Contractor Oversight Procedures	Contractually require contractors to comply with the City's stormwater management program best management practices and to provide oversight of contractor activities. Activities will be completed by December 2022.
III.B.5. Pollution Prevention and Good Housekeeping For Municipal Operations (b)(5) Municipal Operation and Maintenance Activities	<p style="text-align: center;">BMP 19</p>	Municipal Operations and Maintenance Activity	Enforce written procedures that describe the frequency of inspections of pollution prevention measures at City-owned facilities and structural controls and how they will be conducted by December 2022. Conduct scheduled assessments and inspections of municipal operation and maintenance activities in 2022 that follows the written procedures. The schedule is located at the Public Works Building and will be completed by December 2022.

F. SWMP Modifications

1. The SWMP and MCM implementation procedures are reviewed each year.

Yes No

2. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ's review.

Yes No

If "Yes," report on changes made to measurable goals and BMPs:

MCM(s)	Measurable Goal(s) or BMP(s)	Implemented or Proposed Changes (Submit NOC as needed)
---------------	-------------------------------------	---

N/A	N/A	N/A
-----	-----	-----

Note: If changes include additions or substitutions of BMPs, include a written analysis explaining why the original BMP is ineffective or not feasible, and why the replacement BMP is expected to achieve the goals of the original BMP.

3. Explain additional changes or proposed changes not previously mentioned (i.e. dates, contacts, procedures, annexation of land, etc.).

N/A

G. Additional BMPs for TMDLs and I-Plans

Provide a description and schedule for implementation of additional BMPs that may be necessary, based on monitoring results, to ensure compliance with applicable TMDLs and implementation plans.

BMP	Description	Implementation Schedule (start date, etc.)	Status/Completion Date (completed, in progress, not started)
N/A	N/A	N/A	N/A

H. Additional Information

1. Is the permittee relying on another entity to satisfy any permit obligations?

Yes No

If "Yes," provide the name(s) of other entities and an explanation of their responsibilities (add more spaces or pages if needed).

Name and Explanation:

Name and Explanation:

Name and Explanation:

2.a. Is the permittee part of a group sharing a SWMP with other entities?

Yes No

2.b. If "yes," is this a system-wide annual report including information for all permittees?

Yes No

If "Yes," list all associated authorization numbers, permittee names, and SWMP responsibilities of each member (add additional spaces or pages if needed):

Authorization Number: _____ Permittee: _____

Authorization Number: _____ Permittee: _____

Authorization Number: _____ Permittee: _____

Authorization Number: _____ Permittee: _____

I. Construction Activities

1. The number of construction activities that occurred in the jurisdictional area of the MS4 (Large and Small Site Notices submitted by construction site operators):

1

2a. Does the permittee utilize the optional seventh MCM related to construction?

Yes No

2b. If "yes," then provide the following information for this permit year: N/A

The number of municipal construction activities authorized under this general permit	
The total number of acres disturbed for municipal construction projects	

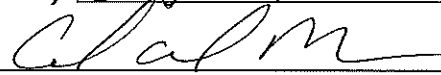

Note: Though the seventh MCM is optional, implementation must be requested on the NOI or on a NOC and approved by the TCEQ.

J. Certification

If this is this a system-wide annual report including information for all permittees, each permittee shall sign and certify the annual report in accordance with 30 TAC §305.128 (relating to Signatories to Reports).

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
